**AMERICAN & FOREIGN PATENTS**  
R. H. EDDY, Solicitor of PATENTS  
(late Agent of U. S. Patent Office, Wash-  
ington, under the Act of 1837.)  
NO. 76 STATE, OPPOSITE EILLY ST.,  
BOSTON.

AFTER an extensive practice of upwards  
of twenty years, continues to secure Patents  
in the United States; also in Great  
Britain, France and other foreign countries.  
Caveats, Specifications, Bonds, Assignments and  
all Papers or Drawings for Patents, executed on  
liberal terms, and with despatch. Researches  
made into American or Foreign works, to  
determine the validity or utility of Patents or  
Inventions, and legal advice offered in all matters  
touching the same. Copy of the claims of any Patent furnished by  
remitting One Dollar. Assignments recorded  
at Washington.

This Agency is not only the largest in New  
England, but through it inventors have ad-  
vantages for securing patents, or ascertaining the  
patentability of inventions, unsurpassed by  
no immediately superior to any which can  
be offered them elsewhere. The testimonials  
below give proof that none is MORE SU-  
CESSFUL AT THE PATENT OFFICE  
than the subscriber; and as SUCCESS IS  
THE REST PROOF OF ADVANTAGES  
AND ABILITY, he would add that he has  
abundant reason to believe, and can prove  
that at no other office of the kind are the  
charges for professional services so moderate.  
The immense practice of the subscriber during  
twenty years past has enabled him to ac-  
cumulate a vast collection of specifications and  
official decisions relative to patents. These  
besides his extensive library of legal and me-  
chanical works, and full accounts of patents  
granted in the United States and Europe,  
render him able, beyond question, to offer  
superior facilities for obtaining patents.

All necessity of a journey to Washington  
to procure a patent, and the usual great delay  
there are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most  
able and successful practitioners with whom  
I have had official intercourse.

CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring Inventors  
that they cannot employ a person more com-  
petent and trustworthy, and more capable of  
putting their applications in a form to secure  
for them an early and favorable consideration  
at the Patent Office."

EDMUND BURKE,  
Late Commissioner of Patents.  
Boston, February 8, 1858.

"Mr. K. H. Eddy has made for me THIR-  
TEEN applications, on all but one of which  
patents have been granted, and that one is  
now pending. Such unmistakable proof of  
great talent and ability on his part leads me  
to recommend all inventors to apply to him  
to procure their patents, as they may be sure  
of having the most faithful attention be-  
stowed on their cases, and at very reasonable  
charges." JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858,  
the subscriber, in course of his large practice,  
made, or twice rejected applications, SIX  
TEEN APPEALS, EVERY ONE OF WHICH  
was decided in his favor, by the Commission-  
er. JOHN TAGGART."

Saturday Morning, May 5, 1860.

FOR PRESIDENT IN 1860,

**Salmon P. Chase,**  
OF OHIO.

Subject to the decision of the National Convention.

## The Democratic Convention at Charleston.

At length, after a session of about two weeks, this assemblage of the hard-heads of the Democratic faith has adjourned, the Northern portion of the delegation having been taught a lesson which if they do not choose to profit by, cannot be otherwise than humiliating to the last degree. Ever since the passage of the Fugitive Slave Law and the report of the Missouri Compromise, these Democrats have been playing second fiddle to the slaveholders and supporters of the South, hunting down their fugitives from bondage, fighting their battles, and in various ways acting the puppy in their behalf. For this, it has all along been contended by the Republican press, they have been held in utter contempt by the proud aristocrats of the South, who have treated them much after the fashion that a dog owner treats his cur, routhching him a bone now and then, but often a kick or a blow. If their treatment by their Southern masters in this contest has not opened their eyes, then should they be given over to perpetual blindness.

But there are other and sadder aspects connected with this assemblage of the representatives of the whilom dominant party of the nation. A noticeable feature throughout all the deliberations of this body, has been the utter recklessness of principle manifested in the selection of the Presidential nominee, showing that not the wise, the truthful, honest or patriotic was sought for in the selection to be made, but the man that could be made most available—on the principle that success with one reckless of principle or those qualifications which attach true dignity and greatness to the nation, is better than defeat with a man of sterling virtues, tried honesty and eminent wisdom as his qualifications. In no previous Convention of this sort has there been manifest so much of this spirit as in the one just brought to a glorious close. We look for better things in connection with the Convention to assemble at Chicago next month, or the institutions may well tremble for the consequences.

**THE UNKINDEST CUT OF ALL.**—By reference to an item under the Telegraphic head in another column, it will be seen that the Great Eastern will make her first trip to New York from Great Britain. This will be anything but a pleasing announcement to the people of Portland. There is no end to the preparations they made for her visit to that port last year, involving an outlay of several thousand dollars, which, if the steamer had made her first trip thence this year might have yielded them at least a partial return. But this announcement, if correct, kills the whole, even if the great monster should pay them a visit before returning across the waters, as by that time much of the charm will have worn off. Newport people may for once consider themselves in luck; as, had this port been first designated instead of Portland, they might, in consequence of the change, have been a few dollars out, and heaven know there is nothing to spare.

**FROM EUROPE.**—The steamship Canada arrived at Halifax Wednesday morning, 2d inst., with three days later European intelligence, her date being to the 21st inst. from Liverpool, and Queenstown the day following. The reverse in the prize fight has not yet rendered his decision, and would not until the next week. It is claimed that each could have won the fight in a few minutes more, and denied that a drawn battle was desired by the friends of either. George Wilkes writes to *The London Times* that Hoenan is ready to renew the fight at an hour's notice. The Prince of Wales was expected to sail for Canada in about a week. Rumors gained strength of the assembling of a Congress to arrange the French-Swiss question. The insurrection in Meiningen had been quelled, but the insurgents were in the mountains in great force, and the troops were unable to dislodge them. The Papal Government had appointed Count Merode, of Belgium, Minister of War.

**CONECTICUT.**—Gov. Buckingham was on Wednesday inaugurated in New Haven, into the office which he has filled since 1868. The ceremonies, parades, processions, &c. on the occasion are spoken of as having been unusually imposing. The city was full of strangers. There was a torchlight procession and a display of fireworks in the evening, the whole concluding with a grand festival and a banquet served up to 2000 persons.

A follow in New Jersey, named Hobson, set fire to his dwelling, destroying it, together with the lives of his wife and four children. He then ran away, giving afterwards as a reason for running, before a coroner's jury, that he "was sorry about his wife and children."

## LOCAL ITEMS.

### ALL SAINTS' CHAPEL.

The following is the petition presented to the City Council at their last meeting, and in consequence of which the boundary between the Third and Fourth Wards was altered.

To His Honor the Mayor, the Aldermen and Common Council of the City of Newport. "The undersigned respectfully petition your honorable body to change the present line of the Fourth Ward, so that it will include in the limits of said Fourth Ward, the lot of land on which "All Saints' Chapel" now stands, on the South-East corner of Beach and Cottage Streets. The necessity for this alteration arises from the fact that said Chapel cannot be used for Episcopal worship in the Third Ward, under the Canons of the Episcopal Church. A question has recently been raised relative to this matter, and the Bishop of the Diocese, as in duty bound, has decided, in conformity to Canons, that said Chapel cannot be opened for religious worship so long as it remains in the Third Ward, at the same time expressing himself very strongly in favor of the freedom of the people in choosing their place of worship, and regretting that the Canons of the Church compelled him to make the aforesaid decision. By granting the request of your Petitioners, you will not, either now or hereafter, change the place of worship of any Electro— and will confer a great benefit on those who desire to worship in the said Chapel, inasmuch as this building cannot be opened as a Chapel for Religious Worship where it now stands, and cannot be removed without great expense and trouble, if indeed it can be removed at all. As it is a Divine command that the Gospel shall be freely preached all over the world, and as it has always been a principle with the people of Rhode Island to grant full toleration and perfect freedom in all religious matters, they pray your Honors to grant their petition.

[From Dwight's Journal of Music.] NEWPORT, R. I.—I wish I could say that the churches in this city, of which there are twelve or fourteen, were all blessed with good music. Some of them, however, are favored in this respect. The Catholic Church, of which devotion to art is characteristic, has a very accomplished organist (Mr. Payne,) and some admirable voices in the choir. Trinity Church (Episcopal) has a choir of boys, under the direction of Mr. Tourjee. This, I believe, is altogether a new feature in the church music of our city. It was introduced by Mr. Tourjee, who, possessing great energy and enthusiasm in his profession, has made it quite attractive.

The Philharmonic Society, conducted by Mr. T. W. Wood, have given us three concerts this winter. The Society had crowded houses each time; their performances exhibited very thorough drill and preparation; and their selection of music was of a very elevated character. The "Mendelssohn" and "Schubert" were of great zeal, so that they do not shrink from the most classic music; and, we are happy to say, that, in the execution even of the most difficult pieces, they exhibit great skill and correctness. In this respect we think the Society deserves great credit; for, while the popular ear does not demand the best style of music, they have steadfastly brought forward the most elevated pieces. In this manner, we think the musical taste of our community has perceptibly improved. It may be mentioned that among the pieces at their last concert were, "Now the Philistines," "Hallelujah Chorus," "Benedict's chorus," "Joy, freedom to-day." A duo for violins, by Mr. Wood and his brother, exhibited exquisite time and admirable expression.

There is an Antislavery Musical Society in this city, the object of which is to revive some of the good tunes of long ago. Singing, as yet, is not taught in our public schools.

A DAY NORTHEASTER.—Yesterday was the sixth day of a cold, dry northeast wind, during all of which time not so much rain has fallen in this vicinity as would fill a moderate sized tea-cup. The consequence of this has been, the development of aches and pains in systems where such were before lying dormant; and an accession of coughs and colds to the community; and we opine that not a few mortal prayers have been breathed for the shifting of the wind to some more congenial point of the compass. Another consequence has been, a very perceptible rise in dust, taking to a noticeable extent the energies of various individuals along the street to subdue it, they going forth armed with garden engines, watering pots and various other ingenious devices for that purpose. The non-appearance of the usual amount of spring rain thus far, is causing some uneasiness among agriculturists as to its probable effect on the grass and other crops.

**BAD FOR VESSELS.**—A northeast wind, though favorable enough for vessels bound south or west, is quite the reverse for those bound in an opposite direction—as a matter of course. The long prevalence of the present wind, has detained a large number of vessels in southern and western ports bound this way. The schooner Nancy J. Brayton was three days on this coast before being able to make a harbor, in consequence of head winds and fog; and yesterday a vessel arrived here eleven days from Hudson, N. Y., having lost that port a week ago last Wednesday, and been ever since Sunday last working her way down from New York. Her captain reports a large number of vessels similarly detained.

**ANOTHER NUISANCE TO BE ABATED.**—We notice that a culvert is being laid from the foot of Mill Street, under Thames Street, and down Ferry Wharf to tide-water. People who have had occasion to pass that way during a heavy rain or thaw, will know how to appreciate this improvement.

**CANONS OF THE EPISCOPAL CHURCH.**—So great is the desire to see those Ecclesiastical laws, that we should think some one of our book stores would procure them. Would it not be a good investment?

### Emanuel Church.

On and after next Sunday, the hour of service will be four instead of three o'clock.

Since an infant was eaten by rats at the Bellevue Hospital in New York, a contract has been made to clear the Hospital of rats within one year, without poisoning them, for \$200.

### Newspapers Wanted.

Any person who will furnish us with copies of the following papers, shall receive a liberal reward and our thanks for the same:

## Extraordinary Freak of a Bull.

A young bull belonging to Mr. Kanditz, of Woodstock Farm, in Sudbury, Center N. Y., recently purchased the residence of that locality, by some extraordinary means. With other cattle the bull was ranging in the farm yard; thence he ascended a short flight of stone steps rising from the yard to a bank. From this he got out to the roof of a shed which rested against the end of a barn. The eaves of this shed were about three feet from the ground. He ascended this until he reached the square of the barn. When he reached the highest point of the tiled roof, with the agility of a cat, he leaped or darted from that to the roof of the main building, which was much steeper—having what the carpenters term a three-eighth pitch. He continued his perilous ascent until he reached the comb or peak of the roof! Here the animal halted—presenting a curious spectacle—a bull on the very comb or roof of the barn! In this situation he was observed by numbers of spectators, who were equally lost in wonder at the lofty position, and as to how he should descend to *terra firma*, without breaking his neck. Even the cattle in the yard seemed uneasy at the novel position of Master Bull, and at his foolish ambition to show himself. All hands were, however, soon relieved of their anxiety. The bull, after taking a survey of the surrounding country, and having apparently satisfied his curiosity, gave a flourish of his tail, and descended by the road he ascended, and reached the ground in safety.

From the Boston Post.

As nearly as can be ascertained, there is sold in New England about one barrel of the pure "Bourbon" to one hundred of bogus. J. H. Cutler & Co. are distillers of and dealers in the pure Bourbon whiskey: Milton J. Hardy, son-in-law of Mr. Cutler, is the sole agent, of whom the genuine article may always be had, at 216 State Street Block. Mr. Cutler is a gentleman of high character, and by scrupulous care in trade has secured the confidence of all who deal with him. See the advertisement in this day's paper.

The Boston Courier says that 2 years ago, the depreciation in the value of stocks and other property belonging to the estate of the late Abbott Lawrence, amounted in consequence of the financial revolution, to about \$1,225,000. Since that time, however, the increase in the value of the same property has amounted to more than the above sum.
